

# Questions about Part D Changes this AEP?

## We are here to help.

Our dedicated team is ready to provide you with the support and guidance you need to make informed decisions. We're here to ensure you get the answers and help you deserve. Join us for a personalized consultation and let us help you find the best solutions for your healthcare needs. Your health and peace of mind are our top priorities!

## Here are some key points on how the Inflation Reduction Act will impact prescription drug coverage for Medicare beneficiaries:

### Price Negotiation for High-Cost Drugs

Starting in 2026, Medicare will be able to negotiate prices for certain high-cost prescription drugs directly with pharmaceutical companies.

### Insulin Cost Reduction

This provision aims to make insulin more affordable for those managing diabetes, significantly reducing their monthly expenses.

### Annual Out-of-Pocket Cap

Beginning in 2025, there will be a \$2,000 annual cap on out-of-pocket expenses for Medicare Part D beneficiaries.

### Rebates for Price Increases

Drug manufacturers will be required to pay rebates to Medicare if they increase drug prices faster than the rate of inflation.
